PROFILE

Creative Software Developer and digital designer working at the intersection of technology, design and multimedia. I build responsive websites, web applications and interactive digital experiences, combining front-end development, back-end integration, motion, 3D and visual design. My background in digital marketing, UI/UX, music production and audio engineering gives me a multidisciplinary approach to solving technical and creative problems. I focus on building work that is functional, intentional and visually engaging.

CORE STRENGTHS

Full-Stack Web Development • Front-End Development • Back-End Integration • UI/UX Design • Interactive Web Experiences • Motion & Animation • 3D Web Experiences • WordPress Development • Digital Marketing • Multimedia & Audio Production

EXPERIENCE

VALLEY GROUP — Software Developer — June 2025 – Present

- Develop and maintain web-based products and digital experiences.
- Build responsive interfaces and interactive front-end experiences.
- Work across front-end, back-end integration, databases and deployment workflows.
- Translate design requirements into functional, polished digital products.
- Collaborate with teams to troubleshoot, refine and deliver production-ready solutions.

LESAKA YES PROGRAMME — Web Development / Digital Marketing — June 2025 – June 2026

- Supported web development, digital marketing and technical workflows.
- Worked on website development, content and digital communication projects.
- Assisted with troubleshooting, deployment and ongoing website maintenance.

RAYNA MUSIC — Audio Engineer — January 2025 – June 2025

- Recording, mixing and mastering.
- Live mixing and sound setup.
- Rehearsal mixing engineering and studio management.

04

SELECTED PROJECT EXPERIENCE

01 AXLE — Multi-tenant LMS / Moodle platform

Worked on React-based front-end experiences, tenant branding, dashboards and role-based interfaces. Implemented polished UI styling, responsive layouts and GSAP animation work.

02 F2F FOOD CO. — Booking / Ordering System

Built a multi-step booking form with file uploads, review flow and backend integration. Worked with Express.js and MongoDB for submission storage and processing. Explored payment-gateway integration and email/notification workflows.

03 PERSONAL PORTFOLIO / INTERACTIVE WEB

Built interactive portfolio experiences using Three.js, GLTFLoader, Blender assets and GSAP/ScrollTrigger. Created animated interfaces and immersive 3D web elements.

04 IMISI FOUNDATION

Developed a cinematic, animation-led website with GSAP and interactive sections. Built responsive page experiences and a 3D basket element using Three.js / GLTF workflows.

3D / WEB

BUILD

ANIMATE

05

TECH STACK

FRONT-END:
HTML, CSS, SCSS, JavaScript, React, Next.js, Tailwind CSS, Bootstrap, GSAP, ScrollTrigger, Three.js, GLTFLoader

BACK-END:
Node.js, Express.js, PHP, REST APIs, PHPMailer, EmailJS

DATABASES:
MySQL, MongoDB, SQL, php\Admin

CMS / WEB:
WordPress, Elementor

3D / CREATIVE:
Blender, Three.js, FL Studio, Logic, Pro Tools

DEVELOPMENT TOOLS:
Git, GitHub, Postman, VS Code, XAMPP

DATA / ANALYTICS:
Power BI, My SQL, MongoDB, Google Analytics

ML / AI PROJECT WORK:
API Integration & Automation
AI Assisted Intergration

DESIGN / CREATIVE:
UI/UX Design, Graphic Design, Digital Marketing, Motion Design, Music Production, Sound Engineering

06

EDUCATION

NORTH-WEST UNIVERSITY (NWU)
Bachelor of Computer Science & Electronics
Completed 2024

HOLY FAMILY SECONDARY SCHOOL
2014 – 2017

07

LANGUAGES

English • Setswana
